

# PEIpro<sup>®</sup>-HQ

Pre-clinical and early clinical phases virus production

Produce pre-clinical grade viruses with a fully characterized transfection reagent!

- + Guaranteed virus production yields equivalent to R&D grade PEIpro<sup>®</sup>
- + Fully characterized product with extensive Quality Controls
- + Manufactured according to a well-established process
- + Supplied with appropriate Documentation

Manufacturing process of PEIpro<sup>®</sup>-HQ reagent.

PEIpro<sup>®</sup>-HQ is supplied with:

- + Certificate of Analysis
- + Certificate of Origin
- + Non-Hazardous Product Statement

Regulatory Documentation upon request:

- + Batch Production Documentation
- + Quality agreement
